Summary

A Full Stack Developer (a.k.a. the person who fixes bugs I definitely didn't create) with solid frontend and backend skills. I build clean, fast, and responsive web apps using React, Next.js, Node.js, Python, and Django. I speak fluent Git, push to GitHub daily, and even know my way around Docker without sinking the ship. Always learning, always building, and always ready to turn coffee into clean code.

Education

Shoolini University (Online)

Bachelors in Computer Application (BCA)

2025 - 2028

Projects

Signalist [🔗](#)

2025 - 2025

Signalist turned my watchlist into a winning list. The alerts are spot-on, and I feel more confident making moves in the market

- Implemented Trading Chart and Company Stocks
- Integrated AI-powered content suggestions using Gemini API

Resume Maker [🔗](#)

2025 - 2025

Developed a fully responsive Resume Maker application using Next.js and Tailwind CSS, enabling users to create, customize, and download professional resumes with ease. Implemented dynamic form handling, real-time preview, and a clean UI focused

- Real-time Resume Preview: Instantly updates as users type.
- Dynamic Form Builder: Add/edit sections like skills, projects, and experience.

Work Experience

The Drott - Full Stack Developer (Freelance)

2025 - 2025

I worked as a Freelance Full Stack Developer and Designer helping a clothing startup build and grow their T-shirt brand. From creating a bold, modern brand identity to developing a smooth, high-converting website, I handled everything end-to-end.

Successfully delivered client projects with 100% satisfaction rate Reduced application load time by 40% through optimization techniques

Technical Skills

React, Next.js, TypeScript, Tailwind CSS, MongoDB, PostgreSQL, Express, Python, Django, Git & Github, Docker

Soft Skills

Collaboration, Problem-solving, Communication, Time management, Result-oriented

Languages

English, Hindi

Certifications

- Python and Object-Oriented Programming - Aptech Learning

- Introduction to Cloud Computing - IBM
- Full Stack Development - Aptech Learning
- AI Primer Course - emly labs
